

**MATCHING!** Draw a line from the career to the description that best matches what they do!

AIRCRAFT MAINTENANCE ENGINEER

FLIGHT SERVICE SPECIALIST

PILOT

AIR TRAFFIC CONTROLLER

FLIGHT ATTENDANT

Someone who makes sure passengers are safe and comfortable during their flights.

Mechanics for airplanes! They make sure airplanes are safe to fly at all times by inspecting them very carefully after every flight.

They help pilots keep aircraft safely separated from other aircraft or obstacles in flight and on the ground.

These are the people who actually fly an aircraft!

They are responsible to provide important information to pilots to help them land and depart safely like weather and other traffic.
